

Display Arrays contents in a ListView

```
Private Sub btnListViewDisplay_Click(sender As Object, e As EventArgs) Handles  
    btnListViewDisplay.Click  
  
        Dim lv As ListViewItem  
        For c = 0 To No_of_Reps - 1  
            lv = ListView1.Items.Add(aNames(c))  
            With lv  
                .SubItems.Add(aQ1(c))  
                .SubItems.Add(aQ2(c))  
                .SubItems.Add(aQ3(c))  
                .SubItems.Add(aQ4(c))  
                .SubItems.Add(aTotal(c))  
                .SubItems.Add(aCommission(c))  
            End With  
        Next c  
    End Sub
```
