After the user clicks "Welcome User" button

After the user clicks "Reset" button

## Java Source Code

```
public class MainActivity extends AppCompatActivity {

    TextView txtUsername;
    EditText etUsername;

    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_main);

        Button btnWelcome = findViewById(R.id.buttonWelcome);
        btnWelcome.setOnClickListener(new View.OnClickListener() {
            @Override
            public void onClick(View v) {
                txtUsername = findViewById(R.id.textViewWelcomeUser);
                etUsername = findViewById(R.id.editTextUserName);
                txtUsername.setText("Welcome " + etUsername.getText().toString());
            }
        });

        Button btnReset = findViewById(R.id.buttonReset);
        btnReset.setOnClickListener(new View.OnClickListener() {
            @Override
            public void onClick(View v) {
                txtUsername.setText("");
                etUsername.setText("");
            }
        });
    }
}
```
