

Email sent to all teachers prior to training

Hi all,

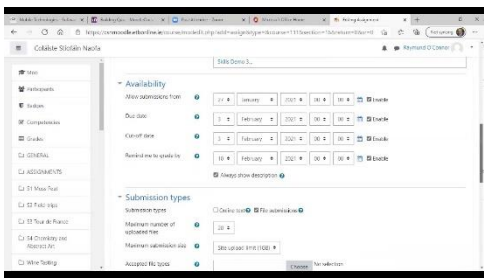

I will be providing a presentation/training to all teachers on the Applied Biology course on Wednesday 3/2/2021 at 11:00. It will take 30 minutes with further training available from the CSN ICT support team if required. If you have a class at this time you are permitted by management to attend and delay your class by 30 minutes if required.

Hopefully, the presentation/training will assist all teachers in preparation for EA/IVing.

Zoom meeting

In the meantime, I would ask you to watch the following short video tutorial prior to Wednesday so I can hopefully any queries on the day. Video: <https://youtu.be/zZ89ostn354>

The screenshot shows a software interface for 'Cubicle - Student Needs'. The interface is divided into several sections. On the left, there is a navigation menu with options like 'Home', 'Availability', 'Submission types', 'GENERAL', 'ASSIGNMENTS', 'STUDENT TOOLS', 'STUDENT REPORTS', 'STUDENT TOOLS', 'STUDENT REPORTS', and 'STUDENT TOOLS'. The main content area is titled 'Student Needs' and contains two main sections: 'Availability' and 'Submission types'. The 'Availability' section includes fields for 'New submission from', 'Due date', 'Cutoff date', and 'Number of submissions'. The 'Submission types' section includes fields for 'Submission type', 'Maximum number of submission types', and 'Maximum submission size'. The interface is clean and modern, with a white background and blue accents.
